

Description

Long lasting protection against germs and viruses.

Benefits & Features

- Can be used in conjunction with room sanitiser, to provide deeper sanitisation on regularly used surfaces
- Antibacterial
- Can be used on most surfaces
- Easy to apply
- Approved to BS EN 1276, BS EN 1650 (yeast), BS EN 13727 (medical).

**Where to Use**

Perfect for use in medical areas, vet areas, offices, work areas, vehicles, homes and more

How to Use

This antibacterial surface sanitiser is designed so that you can spray onto the surface, and simply wipe clean. This is great when used after the Room Sanitiser so you can be even more confident you have left the area as
