

Description

PROTEAN AtmoShield+ is a NSF: H1 registered, spray-formulated heavy duty wax film, enriched with corrosion inhibitors and suitable for use within Food & Beverage, Packaging, Pharmaceutical and other cleanroom environments. Providing long term protection against corrosion on metal components and equipment, and resistant to both water wash-off and cleaning, PROTEAN AtmoShield+ is ideal for use on machined surfaces and assemblies that are subjected to long periods of storage or shipping conditions.

Benefits & Features

- NSF: H1 registered
- Corrosion inhibitors provide long-term metal protection, even outdoors
- White, clean film for improved coverage visibility
- Tenacious heavy duty wax film – resistant to wash wash-off and cleaning
- Ideal for use on components and machinery kept in long-term storage
- 360° valve for inverted use

Directions for Use

- Store out of direct sunlight and below +50°C (ideally between +10°C and +25°C)
- Consult the safety data sheet prior to use
- Shake aerosol can well before use
- Ensure the components requiring protection are clean/dry and free of dirt before applying with AtmoShield+
- Wipe away any excess build up

Technical Data

Category	H1 (lubricant with incidental food contact, for use in and around food processing areas)
NSF Certificate No.	154794
	Does not contain any genetically modified ingredients, nut oils or animal derivatives
Appearance	Off White
Odour	Characteristic of solvent
Propellant(s)	Propane / butane
Flammability	Extremely flammable
Storage	Out of direct sunlight, below +50°C
Flash Point	-60°C
Relative Density	0.75
Solubility in water	Insoluble
Pack Sizes	12 x 400ml cans
