

Description

Bagged clay granules. A Spanish clay product suitable for most water and oil based spills, except strong acids, occurring in the workplace. Chemically inert and fire retardant with good adsorbency this is an economic method of keeping floors clean and safe.

Benefits & Features

- Chemically inert for no reaction to spilled liquids
- Fire retardant for safety
- Good adsorbency
- Not classed as hazardous or toxic
- Economically priced

Directions for Use

Spread granules on spill affected area, then leave to absorb the spillage. Sweep the floor and dispose of the contaminated granules as waste, in accordance with local regulations, bearing in mind the product absorbed.

Technical Data

Appearance:	Light cream soft clay granule
Odour:	Odourless
Material:	Spanish attapulgite clay (hydrated magnesium aluminium silicate)
Absorbency:	Approx 5 litres per bag depending on substance being adsorbed
Relative Density:	2
pH:	9-10
Solubility:	Insoluble in water
