

#### Description

Penetrating fluid with freezing shock release action for corroded fasteners. An oil based release agent with the added benefit of a freezing action for the rapid release of rusty and dirty fasteners where traditional penetrating oils are ineffective. The very low temperature spray causes cracking in the corrosion, allowing the penetrating oil to enter for quick release of the fastener.

#### Benefits & Features

- Reduces component temperature to -31°C
- Causes micro cracks in the corrosion which allows entry of penetrating oil
- Safe for use on most materials
- Silicone free
- 360° valve for use at any angle

#### Directions for Use

Spray liberally onto surface to be released from a distance of 10-15 cm and leave to penetrate for a few minutes before releasing the fastener.

#### Technical Data

Appearance:	Amber liquid
Odour:	Alcohol
Contents:	Blend of acetone, isopropanol, white spirit and butane propellant/freezer
Flash Point:	<0°C
Solubility:	Insoluble in water
Temperature Range:	Reduces surface temperature to -31°C
Relative Density:	0.83
Flammability:	Extremely Flammable
Health & Safety:	Consult Safety Data Sheet (available at <a href="http://tygrisindustrial.com">tygrisindustrial.com</a> )
Storage:	Below 50°C
Pack Size:	12 x 400ml aerosols

#### Note
