TECHNICAL DATA SHEET

1000LTR OIL ONLY SPILL KIT SK1000(O)

Description

SK1000(O) is developed for the absorption of all oil based spills and will not collect water or water based substances. This is a high capacity spill kit in a tough 'Drop-Front' 4-wheeled bin that can be easily moved to the spill location. The SK1000(O) provides a practical means of storage, as well as initial containment for absorbents requiring disposal after a spill.

Benefits & Features

- · Absorbs up to 1000 Litres
- The tough 4-wheeled bin makes the SK1000(O) very easy to move around large sites.
- · Ideal for use on waterways, streams, lakes, ponds and tanks to absorb oil contamination off the surface.
- · Product identification label to eliminate confusion
- The 'Drop-Front makes for quick easy access to the absorbents
- Contains Waste Disposal bags to ensure the waste is disposed of correctly
- · Contains an easy to read, step by step Spill Response Action Leaflet

Directions for Use

- 1. Identify the type of liquid and ensure the safety of all persons in the vicinity of the spill.
- 2. In the case of hazardous liquids, be sure to wear appropriate protective clothing, i.e. gloves, goggles, coveralls.
- 3. Ensure that all drains are protected using drain covers.
- 4. Use socks or mats to prevent the liquid spreading towards the drains.
- 5. If possible, identify and stop the leak at source.
- 6. Use the mats to clean up the spill; dispose of soiled absorbents using the waste-disposal bag provided.
- 7. Report the incident!
