## WHY CHOOSE ONOS?

### Performance Lubrication

ONOS lubricants deliver the same high performance you expect from TYGRIS. Engineered for demanding environments, these biodegradable solutions offer long-lasting protection, reduced wear, and consistent reliability.

#### SUPERIOR LUBRICATION

Reduces friction, extending equipment life.

#### EXTREME PRESSURE

Protects machinery under stress.

#### OPERATIONAL EFFICIENCY

Extends service life and reduces maintenance costs.

## ENVIRONMENTAL ADVANTAGE

### Sustainability Without Sacrifice

ONOS is a revolutionary range of biodegradable products from TYGRIS, designed to deliver the high performance you expect, with the added benefit of environmental responsibility. Unlike petroleum-based lubricants, ONOS products break down naturally, reducing long-term soil and water contamination. By using renewable base oils, they reduce reliance on petroleum while meeting stringent environmental regulations.

#### BIODEGRADABLE

Minimising environmental impact.

#### RESOURCE-CONSERVING

Lowers dependence on non-renewable oils.

#### REGULATORY COMPLIANCE

Meets strict environmental laws.

## INDUSTRY APPLICATIONS

### Trusted Across Multiple Sectors

ONOS lubricants are specifically formulated for demanding environments, making them the ideal choice for industries where performance and environmental responsibility align. This improves sustainability credentials, appealing to eco-conscious consumers.

#### MARINE INDUSTRY

Meets strict environmental laws, protecting aquatic ecosystems.

#### FORESTRY

Keeps machinery running in extreme conditions while minimising environmental impact.

#### AGRICULTURE

Extends equipment life while protecting soil, crops, and groundwater.

#### MANUFACTURING & HEAVY INDUSTRY

Complies with zero-waste initiatives and supports corporate sustainability goals.

## ONOS MAINTENANCE SPRAY MULTI-PURPOSE LUBRICANT

If you've been looking for a way to cut down the time spent on maintenance, then look no further.

This silicone-free spray is enhanced with performance improving enhancers. MAINTAIN101 easily penetrates and releases seized corroded components, which not only increases component life but makes any assembly or disassembly in the future much easier. This spray doesn't just help with seizure, but can guard against corrosion and drives out moisture for effective protection.

Aside from protection, it also acts as a long-lasting lubricant that doesn't stain and keeps your parts working smoothly. This maintenance spray also provides fantastic cleaning power, and can power through dirt, grease, and grime on most surfaces! With so many uses MAINTAIN101 gives you effective Lubrication, Cleaning And Protecting in one handy 400ml can!

#### BENEFITS:

- Protects metal components from corrosion
- Comes with a 360° valve for all over use.
- Cleans through dirt and grime

PRODUCT CODE	SIZE
ONV101	400ml

## SOLVENT DEGREASER

A bio-degradable solvent for degreasing and cleaning of metal components. Developed as an effective cleaner of automotive brake, clutch parts, metals, coatings and most rubbers and plastics.

### BENEFITS:

- Clear, fast evaporating liquid
- Effective degreaser and general cleaner
- Residue free
- Eliminates brake squeal and clutch slip
- Biodegradable
- No bioaccumulation potential

## AQUALOAD SVR GREASE

ONOS AquaLoad SVR is a premium quality biodegradable grease containing a unique blend of corrosion and oxidation inhibitors, extreme pressure and anti-wear additives. Ideal for use in all anti-friction and plain bearings subjected to high levels of shock and vibration, heavy loads and humid conditions.

### BENEFITS:

- Premium grade lithium / calcium soap grease
- Outstanding shock, vibration and water resistance
- Ideal for high load applications
- Tenacious EP film offers resistance to water wash-off and effective corrosion prevention
- Good mechanical and oxidation stability;
- Effective in humid conditions;
- Temperature range -20oC to +140C

PRODUCT CODE	SIZE
ON1104	400G
	12.5KG
	50KG
	180KG

## HEAVY DUTY GREASE

Onos HD is a high-performance lubricant designed for applications requiring high biodegradability. Formulated using eco-friendly, high load additives & Ideal for environments where lubricant loss could contaminate soil or water.

### BENEFITS:

- Highly biodegradable
- High load and good mechanical stability
- Excellent corrosion resistance
- Resistant to hydrocarbons
- Highly adhesive

PRODUCT CODE	SIZE
ON1004	400G
	12.5KG
	50KG
	180KG

## WIRE ROPE GREASE

A biodegradable semi-fluid, solvent free wire rope lubricant designed to meet the lubrication and corrosion prevention requirements of wire ropes working under all conditions. Typical application areas are dockside cranes, draglines, water treatment and situations where a biodegradable lubricant is preferred for environmental reasons. The ingredients used in the manufacture of ON3018 naturally biodegrade by micro-organisms, so making this product environmentally friendly when compared to conventional rope lubricants.

### BENEFITS:

- Biodegradable - environmentally acceptable
- Excellent protection internally and externally, extending rope service life
- Molybdenum disulphide reduces wear between strands
- Water repellent properties for extended service intervals
- Thin film eliminates fling off
- Does not attract dirt
- Clean to handle
- Extensive covering power for economy of use

PRODUCT CODE	SIZE
ON3018	18KG

## HYDRAULIC VG46 OIL

ISO VG46 Hydraulic Fluid, formulated with cutting-edge, patented technology. Engineered to deliver world-class performance while being environmentally responsible.

### BENEFITS:

- Machines that previously required a change every 6 months now run for 3 years without affecting performance.
- Bio-degradable, non-toxic, and high in renewable carbon.
- Meets ISO 15380 HEES specifications and excels in the Vickers Vane Pump Tests.
- High oxidative and hydrolytic stability.
- Compatible with various OEM seal technologies.

## HYDRAULIC VG32 OIL

ISO VG32 Hydraulic Fluid, formulated with cutting-edge, patented technology. Engineered to deliver world-class performance while being environmentally responsible.

### BENEFITS:

- Machines that previously required a change every 6 months now run for 3 years without affecting performance.
- Bio-degradable, non-toxic, and high in renewable carbon.
- Meets ISO 15380 HEES specifications and excels in the Vickers Vane Pump Test.
- High oxidative and hydrolytic stability.
- Compatible with various OEM seal technologies.

*Responsible Performance*

**Tired of choosing between performance and planet? *You don't have to!***

Introducing ONOS, the innovative range of biodegradable lubricants from TYGRIS. Engineered to deliver uncompromising performance while reducing environmental impact. For forestry professionals, this means maximising productivity without compromising on sustainability.

### **The Future of Lubrication:**

#### **Excellent Seal Compatibility:**

Ensures efficiency without seal damage or degradation.

#### **Biodegradable Formulation:**

Reduces environmental footprint without compromising operations.

#### **No Increased Service Intervals:**

Continue your regular maintenance schedule with no disruption.

#### **Versatile Range:**

From hydraulic oils to heavy-duty greases, ONOS offers superior performance, sustainability, and reliability.

**More than just lubricants, it's a commitment to sustainability. Experience the future of lubrication with ONOS.**
