# The Demands of Modern Farming

Agriculture is a demanding industry, facing constant pressure to maximise yields while minimising downtime. From planting to harvesting, your machinery endures tough conditions and requires reliable protection.

## KEY CHALLENGES INCLUDE:

**Premature Wear:** Constant exposure to dust, dirt, and varying weather conditions leads to accelerated wear on critical components.

**Water Displacement & Corrosion:** Moisture from rain, irrigation, and humidity can cause corrosion and damage electrical systems.

**Heavy Loads & Vibration:** Tractors, harvesters, and other equipment operate under heavy loads and experience significant vibration, stressing bearings and other moving parts.

# Solutions for Harvesters & Tractors

## Lithium EP2 Grease

TYGRIS Lithium EP2 Grease is a premium quality multi-purpose grease. In agriculture, TG84 excels at lubricating tractor wheel and harvester header bearings, drive shaft U-joints and steering and hydraulic linkages, offering superior extreme pressure, anti-wear, and corrosion protection as a highly versatile grease.

### Benefits:

- Excellent extreme pressure and anti-wear performance
- High degree of corrosion protection
- Highly versatile multi-purpose Lithium Ep2 Grease

PRODUCT CODE	SIZE
TG8404	400g
TG8405	500g
TG8430	3Kg
TG8412	12.5Kg
TG8418	18Kg
TG8450	50Kg

## Battery Terminal Protector

TYGRIS Battery Terminal Protector is an easily applied fine film spray that protects battery terminals by sealing them from air and moisture, prolonging battery life, and increasing efficiency. Corrosive deposits are prevented from building up and the coating contains a pH indicator to detect the incidence of leaks.

### Benefits:

- Protects battery terminals from deterioration
- Increases starting efficiency
- pH indicator dye detects battery acid leakage and turns from orange to red

PRODUCT CODE	SIZE
R204	400ml

## Calcium Sulphonate Grease

TYGRIS Calcium Sulphonate Grease is a superior quality, extremely stable complex grease with exceptional load carrying capacity, designed to provide extended re-lubrication intervals in a wide range of applications, including those in extreme working conditions. TG9804 is suitable for use in all types of anti-friction, plain bearings and sliding surfaces.

### Benefits:

- Extends lubrication intervals, ensuring maximum cost savings in grease consumption
- Very high water resistance and corrosion protection
- Excellent EP performance provides protection against premature wear

PRODUCT CODE	SIZE
TG9804	400g

## Brake & Clutch Cleaner

TYGRIS Brake and Clutch Cleaner effectively removes oil, grease, dirt and dust from brakes and clutches, helping to eliminate brake squeal and clutch slip caused by glazing and contamination. This product can also be used on many other surfaces as a powerful cleaning agent, but not on plastic or rubber components.

### Benefits:

- Clear, fast evaporating liquid
- Powerful cleaning and degreasing brake and clutch cleaner
- Removes oil, grease and dirt

PRODUCT CODE	SIZE
TB6005	5 Litre

# Solutions For Machinery & Equipment

## Bright Zinc Galv Spray

For any galvanised surfaces that have been cut or welded, TYGRIS Bright Zinc Galv Spray provides a simple way to reapply a protective zinc coating. This sacrificial zinc layer prevents corrosion and is resistant to heat, while the spray's resins ensure a strong bond to the metal.

### Benefits:

- Resistant to salt spray and weathering
- Aluminum powder gives a brighter finish to blend with existing coatings
- Excellent adhesion and quick drying

### PRODUCT CODE

R224

### SIZE

400ml

## Industrial Cleaner Fast Drying

TYGRIS Industrial Cleaner is a fast drying industrial cleaner which is used to break down grease, dirt, oil and other workshop contaminants quickly and easily without the need for subsequent rinsing, saving time and maintaining a clean environment.

### Benefits:

- Breaks down contaminants quickly
- Solvent evaporates quickly, leaving a clean surface
- Non-chlorinated

### PRODUCT CODE

R207

### SIZE

400ml

## WD Anti-Rust Agent

TYGRIS WD Anti-Rust Agent is a high-performance water displacement spray designed to free seized components and provide lasting corrosion protection. In agriculture, R213 is ideal for releasing rusted bolts and linkages on tractors and harvesters, protecting electrical connections from moisture, and lubricating moving parts to prevent wear, ensuring smooth operation and reducing maintenance downtime.

### Benefits:

- Super powerful water displacement properties
- Leaves a protective film to guard against corrosion
- Rapid penetrating action for seized components

### PRODUCT CODE

R213

### SIZE

400ml

## HydroTough 100

TYGRIS HydroTough 100 is a safe and effective solution for tackling heavy fuel oil deposits, stubborn greases, bitumen, resins and aged oil contamination. HydroTough 100 acts as a bio-accelerator for a complete breakdown of hydrocarbons, and is used for cleaning tools, equipment and machinery.

### Benefits:

- Totally safe to use and environmentally responsible
- Outlasts conventional cleaners/degreasers
- Ideal for removing heavier contamination deposits

### PRODUCT CODE

TB2025

### SIZE

25 Litre

# Maintenance Solutions For The Agriculture Industry

## Clear Penetrating Oil

TYGRIS Clear Penetrating Oil is a clear, low-viscosity oil-based product used to aid the freeing of seized nuts and bolts, hinges, locks, tools and fittings with a fast penetrating capillary action. It also leaves a clear protective film to guard against further corrosion.

### Benefits:

- Low viscosity for maximum penetration
- Also suitable for light lubrication duties
- De-watering capability

## Seize Release Penetrating Oil

TYGRIS Seize Release Penetrating Oil is an advanced penetrating oil with a shock freeze action that rapidly freezes seized components, causing micro-cracks in rust layers and allowing rapid penetration of the lubricant.

### Benefits:

- Tested to -31°C creating a shock effect allowing active lubricant to penetrate
- Reduces costs by saving time
- Does not contain silicones

### PRODUCT CODE

### SIZE

R212

400ml

### PRODUCT CODE

### SIZE

400ml

## Copper Anti-Seize Compound

TYGRIS Copper Anti-Seize Compound is a high-temperature lubricant providing outstanding overall metal protection against heat, rust, seizure and corrosion. TG82 is also resistant to water and acids and it will not burn off under extreme stress. For use on threaded components, pins, and valve stems, in a range of materials, including austenitic stainless steel.

### Benefits:

- Use on a wide range of metals
- Prevents seizure of threaded parts
- Assists in assembly and disassembly of components

TG8205

500ml

TG8212

12.5Kg

## MAINTAIN101

### Multi-Purpose Maintenance Spray

TYGRIS MAINTAIN101 is a versatile, all-in-one maintenance spray designed to protect, lubricate, and clean metal components. In agriculture, MAINTAIN101 excels at freeing seized linkages and bolts on farm machinery, protecting electrical connections from moisture and corrosion, and cleaning dirt, grease, and grime from equipment surfaces.

### Benefits:

- Protects metal components from corrosion
- Comes with a 360° valve for all-over use
- Cleans through dirt and grime

### SIZE

V101

400ml

# PROTEAN: Farm to Fork Solutions

In the agricultural industry, ensuring food safety isn't just a best practice—it's essential. Our PROTEAN range delivers cutting-edge, H1 NSF-certified food-grade lubricants and cleaners designed to protect your entire operation, from harvest to processing and beyond.

## Why PROTEAN?

We understand the unique demands of food production. Our products are the result of rigorous research and end-user engagement, guaranteeing optimal performance without contamination risks. "Food Grade" means our products are safe for direct contact with food, preventing harmful chemical leaching. With NSF registration, you gain the highest level of consumer trust and regulatory compliance.
